

Garden task

Your garden project

Congratulations. You have just moved into a new house with enough outside space to create your dream garden. The garden is currently unfenced and overgrown. There is a broken glass greenhouse and a derelict fishpond. You have set yourself six weeks to transform your garden. You are holding a party in your new garden, on the Friday of the 6th week, in the middle of the British summer, to celebrate all your hard work. Let's Scrumple!
